0407

Universal Hardener fast

Characteristics

0407 is a multi-purpose, UV-resistant hardener based on isocyanate for 4CR 2K-paints, 2K-primers, 2K-fillers, 2K-clearcoats, etc.

Application

Stir well with the base product before use.
 0407 reacts with humidity, therefore close tin immediately after use.
 Avoid inhalation of spraying mist.

Technical Data

Colour shade	colourless
Spraying viscosity 20°C	approx. 18 s 4 mm DIN 53 211
Pot life	see the base product
Mixing ratio	see the base product
Thinner	0505

Storage and Transportation

About 9 months in the original tins.
